Project 1
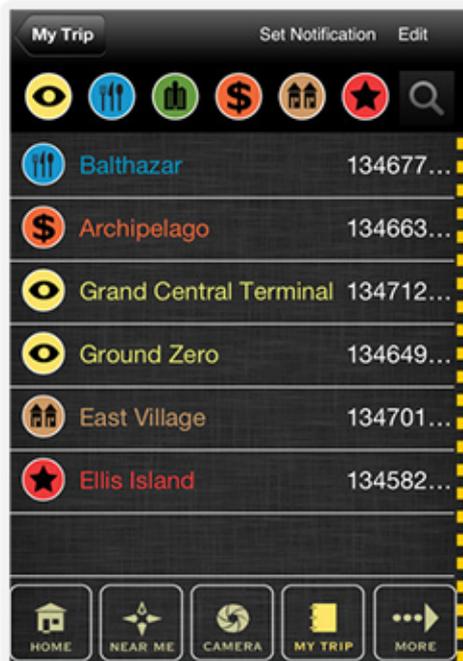

NYC
New-York-Travel-Guide

Description

The award-winning travel series goes interactive! Featuring over 675 listings, this practical, engaging, and easy-to-use travel app will introduce you to Manhattan's many wonders. First-time visitors will find the perfect introduction to New York City, and for those already familiar with the island metropolis, we've pointed out plenty of lesser-known gems in every neighborhood. Find locations on a map (even offline!), schedule a trip itinerary, share your photos, and easily locate venues nearby. New York offers something for everyone. With the help of Peter Pauper's city guide, make the most of what it has in store for you.

Yellow Stones
Insurance Exchange.RRG

Description

Yellowstone Insurance Exchange, RRG is a member owned professional & general liability insurance company managed by member hospitals to serve their liability insurance and risk management needs. Our primary objective is to ensure the availability of liability insurance and to maintain premium stability over the long-term.
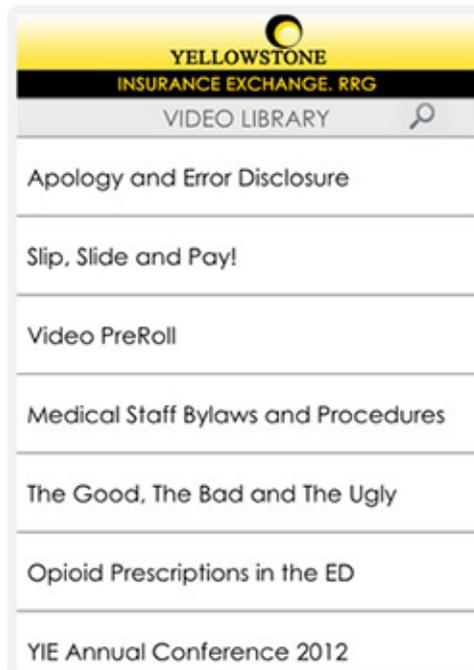

Yellowstone offers more than simply insurance. We take a proactive approach to the entire insurance process by reducing the likelihood of a claim before it occurs. Through our superior risk management services and in-house claims handling, we ensure Yellowstone has your hospital's future at the forefront of our intentions.

Karma

Description

Karma is an Commercial App where iPad App for shop owners or managers and iPhone will be used by the users who are visiting the store. The main theme of the app is to give an reward points to users whenever they come in range of Bluetooth it transfers the points automatically. User can use those points to get an item in that store for free.
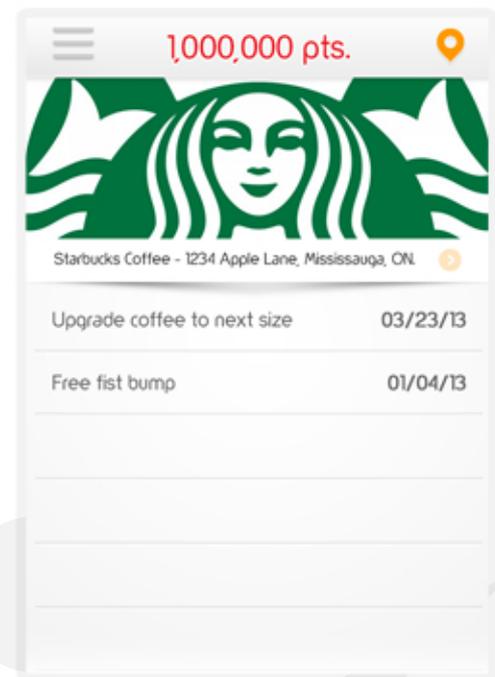

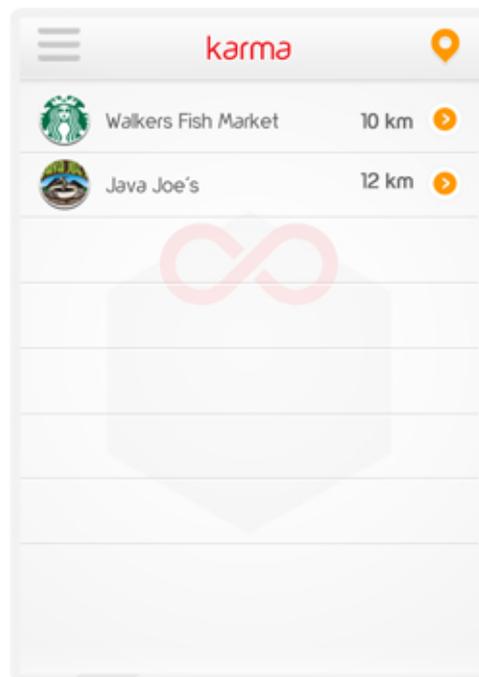

In iPhone App user must have an account to access the number of stores available in different places, available points at different stores, nearest distance stores to user location. Once the user has linked his twitter account then his points will post automatically to twitter wall whenever he gets points.
